

ONE POST

**NINE
WAYS**

The non-spammy way to post
to multiple facebook groups to
build your business.

Nina Elaine

Your dilemma: You joined multiple fb groups to market yourself. You are posting 3-5 times a day in each group BUT you feel a little spammy posting the same content over multiple pages and even if you didn't feel spammy you do now since I just mentioned it.

My solution: Use multiple formats for the same message!

Watch me turn one message into NINE creative post that wont look identical in someone's news feed.

NINE POST FORMATS

1. Standard Post

2. Q & A

3. Poll

4. PDF Email Opt In

5. Selfie Quote

6. Image Quote

7. Blog Teaser

8. Vlog Link

9. Audio Link

STANDARD POST

Ever have one of those days when you feel like a failure as an entrepreneur? We all have! the difference is that some of us wiped our tears and kept it moving.
You Got This.

Perfect post to create if you are in a hurry.

Tip: Keep it short unless it's REALLY good. If your post is more than 3-4 paragraphs consider turning it into a blog.

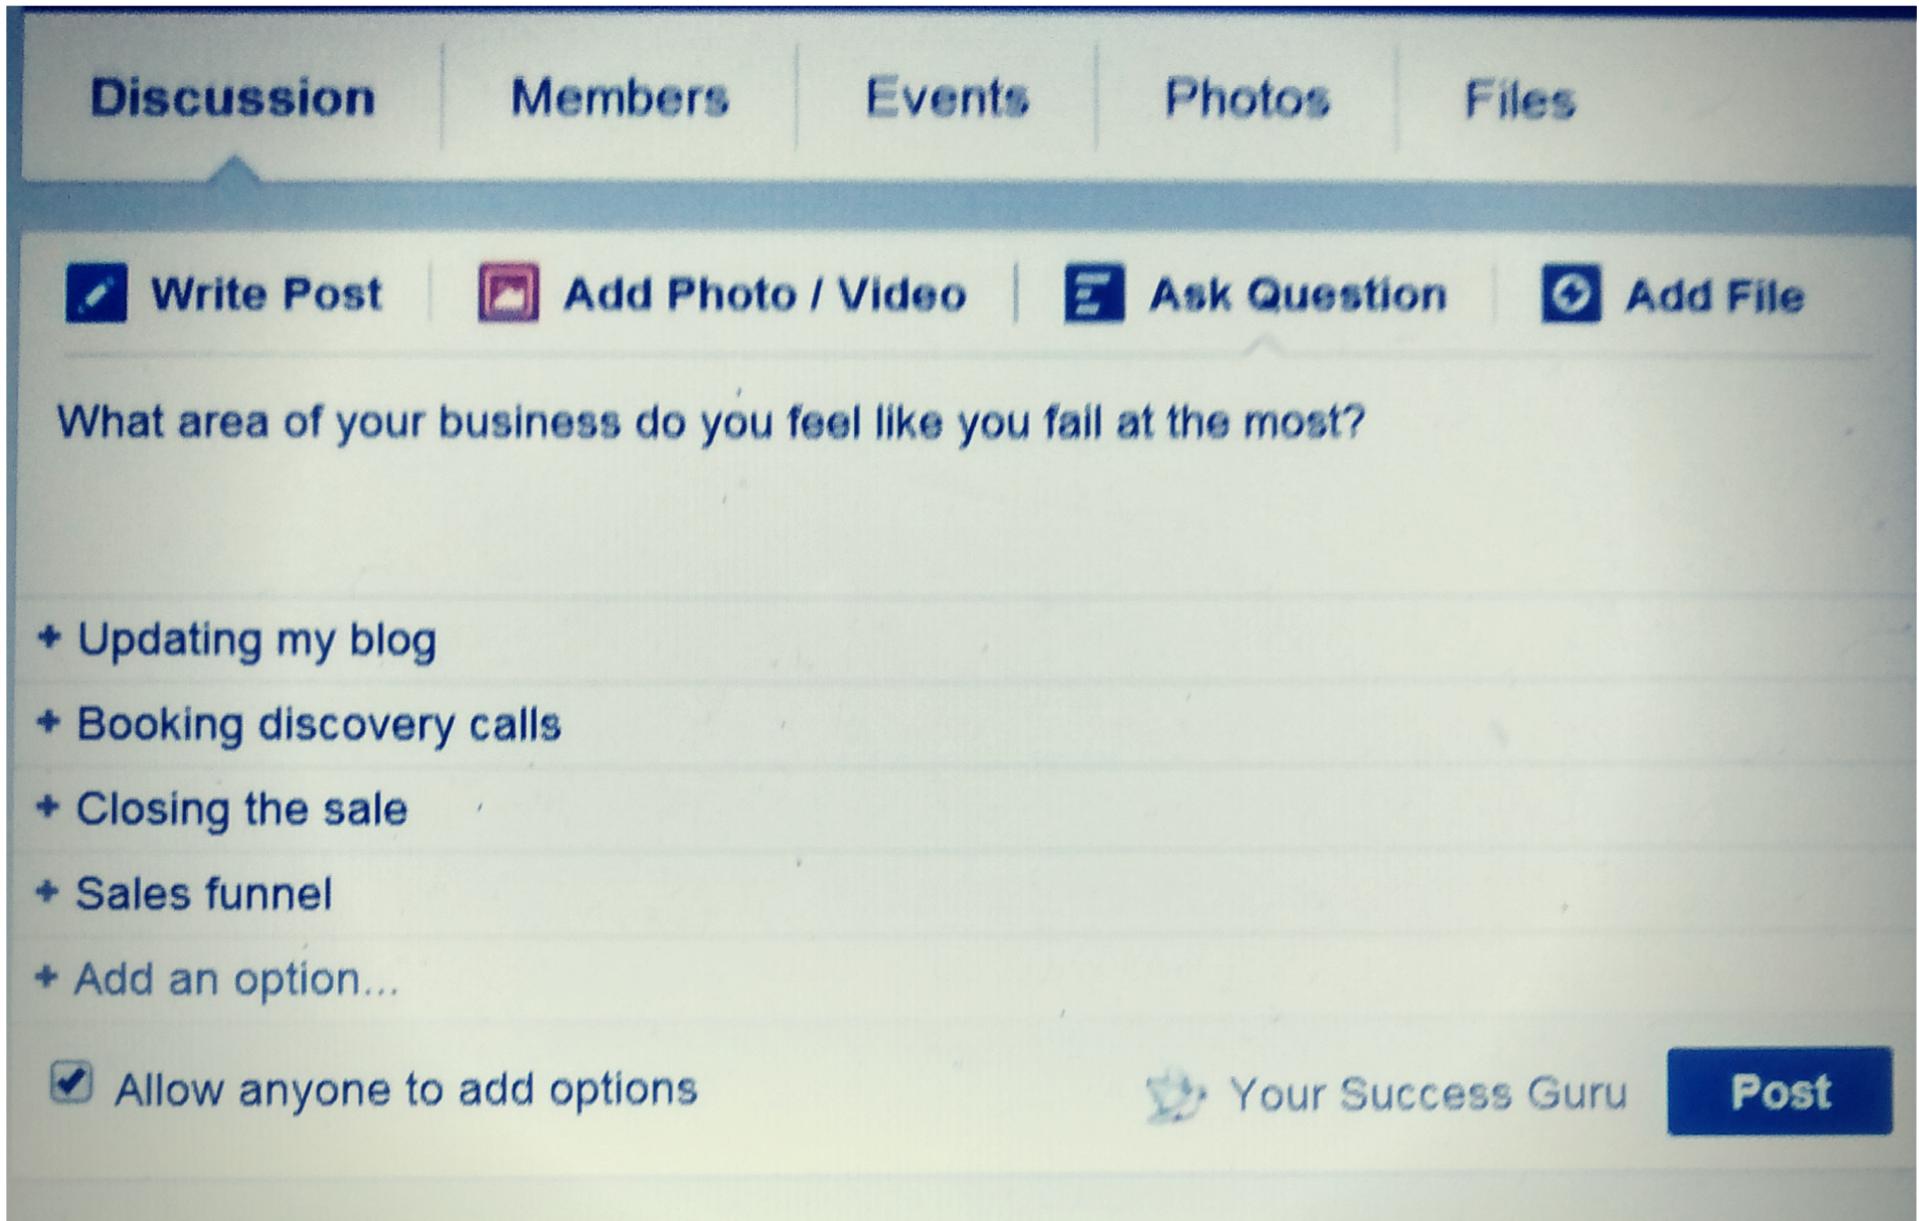

Q & A

When was the last time you felt like a failure at your business? We've all been there. Comment Below.

Q & A posts have a higher chance of interaction.

Tip: Answer the question yourself in the comments and be authentic about your answer.

POLL

The image shows a screenshot of a social media platform's interface for creating a poll. At the top, there are navigation tabs for 'Discussion', 'Members', 'Events', 'Photos', and 'Files'. Below these are four main action buttons: 'Write Post', 'Add Photo / Video', 'Ask Question', and 'Add File'. The 'Write Post' button is selected, and the poll question is entered: 'What area of your business do you feel like you fail at the most?'. Below the question, there are five poll options, each with a plus sign to its left: '+ Updating my blog', '+ Booking discovery calls', '+ Closing the sale', '+ Sales funnel', and '+ Add an option...'. At the bottom left, there is a checkbox labeled 'Allow anyone to add options' which is checked. At the bottom right, there is a profile picture and the name 'Your Success Guru' next to a blue 'Post' button.

Polls look more interesting than a simple text post.

Tip: Use polls as a quick non-pushy method for market research.

PDF EMAIL OPT-IN
